2020 Term 4 for Year6/7—Year 9/10 at CS Education (Norwest)

HSC Preparation Courses for Y6/7 —Y9/10

- ❑ With the HSC and **University entrance** being the goal of most high school students, **CS Education** understands the importance of consolidating work learnt at school in order to better prepare students for assessment tasks and eventually the HSC Exam.
- ❑ At CS Education, we believe there are several key factors which determine a student's scholastic performance: **understanding, application** and **confidence**.
- ❑ When a student doesn't **understand** the work that is being taught, most often they will lose what little interest they had and give up altogether. Or perhaps the student is capable of a lot more than what they are being taught at school. Either way, CS Education offers classes in different levels of **Maths** Some classes are graded and all classes are taught by only the best teachers. With their combined experience and knowledge, our students receive the best help available in Sydney!

Free Tutorial Classes

In this class we follow the students' individual progress to help their skills in English and Maths. Attending date will be arranged by CS Education.
